Burrill Lake Bridge – access for pedestrians and cyclists

**North bound**
North bound cyclists using the Princes Highway Shoulder may turn left at Wallaroy Drive and then use the pram ramp to access the off road shared path.

**South bound**
South bound cyclists using the Princes Highway shoulder may turn right at Princess Ave (North) and use the pram ramp to access the off road shared path to travel south.

Pram ramps are positioned to enable pedestrians and cyclists safe access on and off the new shared path from the highway and local roads.

The pedestrian and off road cycle path on the new bridge will connect to new paths on both sides and link to the Ulladulla cycle path.
