Transport for NSW has identified some ways to improve bus on-time running in Sydney’s eastern suburbs.

Transport for NSW and Roads and Maritime Services asked the community for feedback between March and May 2016 on a proposal to make changes to some bus stops in Sydney’s eastern suburbs. We would like to thank everyone for their comments.

We received feedback from 144 people and organisations. The feedback included comments around access to bus services, additional walking distances and project justification.

WHAT HAPPENS NEXT?

We summarised the feedback and our responses in a Community Consultation Report which can be viewed at www.rms.nsw.gov.au/bpp.

We considered all feedback while finalising the proposal and decided to proceed with the removal of bus stops at the following locations:

- Stanley Street near Yurong Street at Darlinghurst
- Stanley Street near Bourke Street at Darlinghurst
- Hargrave Street near Taylor Street at Paddington (outbound stop)
- Hargrave Street near Taylor Street at Paddington (inbound stop)
- Old South Head Road near Edgecliff Road at Bellevue Hill
- Old South Head Road near Bon Accord Avenue at Bondi Junction
- Old South Head Road near Francis Street at Bellevue Hill.

We will relocate the bus stop on:
- Old South Head Road near Flood Street at Bondi

We will also extend bus stops on:
- Stanley Street near Crown Street at Darlinghurst
- MacDonald Street near Liverpool Street at Paddington.

Following a review of the comments, we have decided not to proceed with proposed changes at the following locations:

- Yurong Street near Stanley Street at Darlinghurst
- Brown Street near Macdonald Street at Paddington.

We expect to start work at these locations in late 2017 and will notify you before this happens.

The detailed maps in this community update explain the final proposal of changes to bus stops.

BACKGROUND

These changes are part of Sydney’s Bus Future, the NSW Government’s plan to redesign Sydney’s bus network to meet customer needs now and into the future. In this plan, our customers tell us that travel time and on-time running are some of the most important service features.

We plan to improve bus journey times by:

- Reducing the number of locations at which buses need to stop by combining or removing some bus stops
- Making it easier for buses to move in and out of bus stops by removing or relocating on-street parking

7. Remove bus stop and replace with no stopping zone
8. Remove bus stop and replace with no stopping zone
9. Relocate bus stop to 10 and replace with a no stopping zone
10. New bus stop replaces parking (~2 spaces)

11. Remove bus stop and replace with a no stopping zone

**KEY**
- EXISTING BUS STOPS
- BUS STOP ADDED
- BUS STOP EXTENDED
- BUS STOP REMOVED OR RELOCATED
