Pyrmont Bay Wharf upgrade
Community update

AUGUST 2014

The NSW Government is upgrading Pyrmont Bay Wharf as part of the Transport Access Program. It is expected work will start in late 2014 and construction will take approximately four to five months. Pyrmont Bay Wharf will be closed during this period.

Transport Access Program
The NSW Government is progressively upgrading ferry wharves across Sydney Harbour to improve Sydney’s ferry service for customers. It is expected work will start in late 2014 and construction will take approximately four to five months. The new wharf is being delivered as part of the NSW Government’s $770 million Transport Access Program – an initiative to deliver modern, safe and accessible transport infrastructure. The Transport Access Program has already delivered new facilities at Milsons Point, Neutral Bay, Rose Bay, Balmain Thames Street and Huntleys Point. Upgrades at Mosman Bay and Drummoyne wharves are currently under construction.

The new Pyrmont Bay Wharf
The new wharf will be connected to the existing timber boardwalk and will include a new covered steel floating pontoon, small concrete fixed bridge and an aluminium gangway connecting the bridge to the pontoon.

The pontoon will have a curved zinc roof, glass panels and new seating offering some protection from the weather and improved amenity.

The new wharf will provide:
• Better protection from the wind, rain and sun
• Improved safety for customers
• Improved access for mobility impaired customers and customers with prams
• Quicker and more efficient boarding and disembarking.
What to expect during the upgrade

The exact construction start date for the Pyrmont Bay Wharf upgrade is still to be finalised, however it is expected to start in late 2014. We will notify customers, local residents, local businesses and stakeholders well in advance of the temporary closure of Pyrmont Bay Wharf.

It is expected work will start in late 2014 and construction will take approximately four to five months. The existing wharf will be closed during construction to enable work to be carried out. All efforts will be made by the project team to reopen the wharf as soon as possible.

A temporary construction compound will be established on land near the existing wharf. The standard work hours will be 7am to 6pm Monday to Friday and 8am to 1pm Saturday. Some of this work will be noisy.

Some early morning or night work, including the installation of piles, may be required when the water is at its calmest. This will generate noise. We will notify nearby residents prior to any early morning or night work taking place. Equipment will include barges, cranes and service boats. Construction workers and equipment will usually be transported to and from the site by water to minimise impacts on local traffic.

Community information session

We invite you to come along to a community information session at the Australian National Maritime Museum on Tuesday 12 August 2014. Members of the project team will be available to provide further information about the project. You are welcome to drop in any time between 5pm and 7pm at:

Australian National Maritime Museum
Waterside Studio
58 Pirrama Road, Pyrmont
Tuesday 12 August 2014

Contact the team

If you would like further information about the Pyrmont Bay Wharf upgrade you can:

Phone: 1800 770 973
Email: WharfUpgradeProgram@rms.nsw.gov.au
Visit the Roads and Maritime Services website:

Alternative transport during construction

Customers can catch the 443 bus service with frequent services to George Street and Circular Quay to connect to ferry or train services.

The F4 Darling Harbour Ferry Service will continue to operate to the existing timetable at the other wharves on the service.

Plan your trip by calling Transport Info on 131 500 or by visiting transportnsw.info to use the trip planner. Please allow extra time for your journey.
If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on 131 450 and ask them to telephone Roads and Maritime Services on 1800 770 973.
